

Whispering Trees on the Lake

A LITTLE MORE ROOM TO BREATHE

WILSON LAKE • DOUBLEHEAD COVE • TOWN CREEK, ALABAMA

Some places invite you to do more. This one invites you to slow down, settle in, and enjoy being together.

Welcome to Whispering Trees on the Lake, a thoughtfully remodeled, beautifully designed lake retreat in Doublehead Cove on Wilson Lake. Under new ownership, the home has received extensive upgrades and fresh attention to comfort, style, and the little details that make a stay feel special.

With three bedrooms, two bathrooms, room for up to six guests, and lovely views of the water and surrounding trees, it's made for the kinds of getaways people remember: a long weekend with friends, a family gathering, a peaceful change of scenery, or a few days away with the people who matter most.

Spend an easy morning on the screened porch as the day brightens over the water. Take your time over coffee, head down to enjoy the lake, gather around the firepit, or simply find a comfortable spot and let the quiet do its work. There's space to connect—and space to do absolutely nothing.

The home pairs a warm, inviting interior with the natural beauty outside: generous windows, a vaulted great room, a stone fireplace, and a relaxed, considered design that feels welcoming rather than fussy. Whether you're planning a girlfriend weekend, a family get-together, or a restful retreat by the lake, Whispering Trees is a place to make yourself at home.

Come sit a spell.

We're glad you found us, and we hope your time here leaves you rested, refreshed, and already thinking about coming back.
